Table of Free Trade Agreements

Free Trade Agreement	**Status**	**Specific concessions by Switzerland**	**Specific concessions by free trade partners**
EFTA-India	In force since 2025	Reduction or elimination of import duties on certain agricultural products (e.g., a preferential zero tariff rate applies to various vegetable oils for technical purposes), without going beyond concessions in other agreements. Border protection for sensitive products such as meat, dairy products, cereals, oilseeds, seasonal fruits and vegetables, wine, and sugar remains in place.	Duty-free access after transition periods for processed agricultural products (e.g., chocolate, coffee capsules, food preparations), gradual duty-free access for certain fruits and vegetables and basic products of animal and plant origin (within up to ten years). Gradual tariff reductions for wine over a period of ten years.
EFTA-Moldova	In force since 2025	Honey, walnuts, industrial and sweet wine. Within WTO quotas: meat, fruit, vegetables.	Duty-free access for practically all agricultural products with existing exports. For milk and cigarettes within quotas.
EFTA-Indonesia	In force since 2021	Reductions for palm oil quotas tied to sustainability labels. Indonesia's main exports such as coffee, cocoa butter, tobacco, vanilla and tropical fruits benefit from preferential access to the Swiss market access. For processed agricultural products, fixed concessions were offered without the price compensation mechanism for raw materials.	Major export products are all exempt from customs duties: cheese and dairy products, coffee, chocolate and biscuits, baby food and energy drinks

Switzerland-United Kingdom	In force since 2021	Concessions analogous to agricultural agreements with the EU: free trade in cheese. For processed agricultural products, the price compensation measures for raw materials in place with the EU are applied to the UK under Protocol 2.	Concessions analogous to the agricultural agreement with the EU: free trade in cheese and processed agricultural products
