

SWITZERLAND

Official Certification under the Terms of Article 8 of the ALO¹

Country of despatch:

I. Identification and origin of the goods

Meat/eggs from (species):	Address of producer:
Description:	
Date packed:	Name and address of sender:
Gross weight:	
Means of transport ² :	
Type of packaging:	
Identification mark:	
Number of packages:	
Point of despatch:	

II. Origin of ingredients

<input type="checkbox"/> Country of origin of ingredients (meat)	Address of certification office:
<input type="checkbox"/> Country of origin of eggs	
	Tel.:
	Fax:
	E-mail:

III. Confirmation according to ALO¹**Meat**

- 1) The certification office hereby confirms that, taking into account points 2 and 3, the raw ingredients for the goods indicated under point 1 originate from animals which, **from birth until slaughter**,
 - a) were not given any non-hormonal substances as defined until Article 160, para. 8, of the Agriculture Act (AgricA; SR 910.1), i.e. antibiotics and/or other antimicrobial substances used as performance-enhancers, and/or
 - b) that the meat comes from domestic rabbits that have been kept under conditions that are legally accepted in Switzerland.
- 2) This confirmation applies only to production methods used from birth until slaughter of animals from which the meat is exported to Switzerland. This presupposes that compliance with the production guidelines (no use of performance-enhancing substances, rabbits being kept under conditions that are legally acceptable in Switzerland) is guaranteed through a production methods certification programme run by a certification office.
- 3) The confirmation therefore does **not** cover the following aspects:
 - a) compliance with maximum levels of residue of performance-enhancing substances in meat (monitoring programme in slaughter houses):
 - b) compliance with the minimum time lapse between the use of performance-enhancing substances and the slaughter of the animal.

Please turn

¹ Ordinance on labelling of agricultural products obtained using production methods banned in Switzerland ([ALO](#); SR 916.51)

² Registration number for railway waggons and heavy vehicles; flight number for aeroplanes.

Eggs

The certification office hereby confirms that the eggs exported to Switzerland as indicated under point 1 do not originate from hens kept under conditions that are banned in Switzerland.

IV. Recipient of goodsCountry of destination: **SWITZERLAND**

Name and address of the recipient:

Place and date:

The certification office hereby confirms that the conditions laid down have been complied with.

Stamp and signature of the certification office:
